1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

- Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Hauck. Hauck discloses a pill dispenser 10 comprising: a housing (stopper 12 and tube 14) having an upper end and a lower end, said upper end attachable to a pill storage container 11, said upper end having a pill entrance in communication with a pill container interior, said lower end having a pill dispensing opening (see Figure 2); a pill passageway within said housing, said passageway extending from the entrance to the dispensing opening (see Figure 2); a plunger means 23 mounted on said housing for selectively delivering a single pill from said pill container through said passageway to said dispensing opening.
- 3. Claims 2 through 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Bollinger whose telephone number is 571-272-6935. The examiner can normally be reached on Monday through Friday from 9:00 am to 5:00 pm.
